

# Traffic Light System LZA 550-UK LED

- "Rugged" and "compact" design with intelligent German technology • AMOS (Automatic Man on Site) alleviates the need for costly man on site operation • Auto restart in case of comms failure • Very compact; a 4-way fits into a small van • Intelligent Portable Traffic Light including Multiphase.

- Folding heads: The tallest portable lights in the UK
- Each LZA 550-UK can run as a master or a slave •

- Multiple phases with multiple heads • Can be wireless or cable linked • Industry leading run times •
